The Chester Wine List

A Curated Collection: Wines as Works of Art

At **The Chester Hotel**, our wine list is more than a menu - it is a curated gallery of sommelier's artistry. Each bottle has been hand-selected with the same precision and passion we bring to every element of our hospitality, chosen not only for provenance and prestige but for the way it elevates flavour and frames a moment.

From the masterstrokes of Burgundy and Bordeaux to the expressive palettes of Napa and Mendoza, this collection balances timeless classics with striking new voices. A crisp Champagne Blanc de Blancs, the brooding intensity of an aged Barolo, the layered elegance of a Saint-Émilion Grand Cru - each is a portrait of place, time and craft.

We invite you to explore our cellar as you would an exhibition - guided if you wish, or free to discover the piece that speaks to you.

CHAMPAGNE
BOLLINGER

The Chester House Champagne: Bollinger

Since 1829, the House of Bollinger has crafted Champagne of distinction - complex, refined, and rich with character. Revered for its affinity with Pinot Noir, Bollinger's style is one of depth and structure, where layers of orchard fruit and brioche unfurl with effortless elegance.

This signature taste is the culmination of uncompromising standards, a remarkable estate, and time-honoured savoir-faire — nurtured over generations with the same precision and pride that define all great artisan legacies. The spirit of Madame Bollinger, whose vitality shaped the house's legacy, is still very much present in each bottle.

The Coravin System

Experience Fine Wines by the Glass

At The Chester Hotel, we're proud to offer an exceptional selection of premium wines served through our Coravin system. This revolutionary technology allows us to pour wines by the glass without removing the cork, preserving each bottle's quality and allowing you to enjoy rare vintages that would typically only be available by the bottle.

How Coravin Works: A fine, hollow needle pierces the foil and cork while argon gas (an inert, odourless preservative) gently pressurises the bottle. This allows wine to flow out while preventing oxidation. When the needle is removed, the cork naturally reseals itself, maintaining the remaining wine's freshness for weeks, months, or even years - just as if it were never opened.

For Full-Bodied Reds: Our Coravin Aerator instantly opens these wines, delivering the equivalent of 60-90 minutes of decanting in seconds. The result? Perfectly aerated, complex flavours in every glass.
